»» ABOUT THE ROUNDTABLE

The Roundtable was inaugurated three years ago in conjunction with the visit of the Honorable Arthur J. Gajarsa of the Federal Circuit, who also served as the Charles E. Green Lecturer in Law and Technology. The Roundtable is an annual event where former Federal Circuit clerks discuss current issues surrounding the Federal Circuit and patent law. The clerks offer their unique perspectives on a range of issues of great importance to patent practice.

The Roundtable is sponsored by Chicago-Kent's Intellectual Property program. Chicago-Kent founded one of the first programs in IP law in the United States more than two decades ago and is nationally recognized as a leader in the field. As the importance of IP law has expanded, the program has continued to reflect and anticipate the constant challenges of contemporary IP practice. The IP Program includes a certificate program for J.D. students in intellectual property and the nation's first LL.M. in International Intellectual Property Law.
